PROFILE

I'm a highly motivated full-stack web developer who is equally comfortable working independently and in group settings. I love developing creative solutions to help a project excel.

SKILLS

Front-end: React.js, Redux, JavaScript, CSS, HTML

Back-end: Node.js, Express, MongoDB

Currently learning: TypeScript, Figma

Tools: Git, Github, Photoshop, Adobe Audition

PROJECTS

Montreal Doctor Finder

Demo: <https://github.com/joni-sadler/Doctor-Finder>

This is a responsive site I created as a solo project to help Montrealers find a family doctor and navigate the local healthcare system. Doctors and clinic administrators can also create accounts in order to directly communicate key information such as patient availability and specialty practices. The site was built during the evenings and weekends around my full-time job over the course of four weeks as the final project for my Concordia Bootcamp course.

Technologies: React.js, Redux, Node.js, Express, MongoDB, styled-components

Group E-Commerce Project

Demo: <https://github.com/joni-sadler/group-project>

As part of Concordia's Full-Stack Web Development Diploma program, I teamed up with two fellow students to develop an e-commerce website. We worked collaboratively to design and build the site from the ground up and we tracked our project management with Trello and Github.

Technologies: React.js, Redux, Node.js, Express, styled-components

EDUCATION

Concordia University: Diploma in Full-Stack Web Development (2020-2021)

Technologies covered include: React, Redux, HTML, CSS, JavaScript, React, Redux, HTML, CSS, JavaScript, Git & GitHub, Babel, NPM, Webpack

Carleton University: Master of Arts, School of Journalism and Communication (2009-2011)

Carleton University: Bachelor of Arts, double major in English and Communication (2004-2008)

EXPERIENCE

Constellation Records, Montréal - *Director of Communications*

December 2017 - Present

- Coordinates all aspects of PR and marketing for a celebrated record label and its artists.
- Fully overhauled and redesigned company website in early 2021.
- Handles all regular website maintenance and content development using HTML and CSS.

POP Montréal, Montréal - *Symposium Director*

January 2017 - December 2018

- Curated an extensive series of free events, including panels, workshops, and artist talks.
- Significantly grew attendance for all events and doubled the Symposium's budget through a combination of targeted outreach and partnership development.

CKUT 90.3FM, Montréal - *Music Coordinator*

September 2012 - December 2017

- Coordinated all music programming, produced by 100+ volunteers.
- Developed and maintained department website.
- Provided extensive technical training for volunteers (audio recording, content creation, website maintenance, etc.)
- Shared all management duties as part of non-hierarchical staff structure and sat on CAT's Board of Directors, Steering Committee, and Programming Committee.
